3M Cubitron™ II Fiber Disc, 982C 36+ Grit

General Description:

- 3M™ Precision-Shaped Grain maintains super-sharp points that cut exceptionally fast with less pressure
- Disc life is significantly longer, completing more parts per disc and requiring fewer disc changes
- Reduces changeouts and downtime in manual, robotic, and pressure-assisted applications
- Triangular shaped ceramic grain lasts up to two times longer than other ceramic abrasives—it wears evenly, runs cool, and optimizes mineral breakdown
- Stiff fiber backing and a strong resin bond provide durability and tear resistance for heavyweight applications such as high-pressure weld grinding and beveling
- 5" x 7/8"
- Die 500P
